

Shelter Enclosures

Shelter Enclosures by Golden Season Pte Ltd

Golden Season manufactures pre-engineered steel enclosures which are 100% airtight, waterproof, and corrosion resistant and maintenance free. These shelters can be built to different sizes according to your requirements.

We can produce insulated or non-insulated shelters, and also professionally retrofit the shelters with electrical fittings to suit different applications. Our engineers are able to handle and affix sensitive equipment to our shelters without compromise to the structure.

Shelter Enclosures

Reinforced Framework of our enclosures:

Shelter enclosures by Golden Season are reinforced for extra strength and durability.

Each and every section of our shelters enclosures is supported with ribs, increasing their resistance to strong impacts and blunt trauma.

The ribs also serve to prevent warping of the sheet metals during the welding process.

Possible applications include and are not limited to:

Air Monitoring	Analyzer for water	Battery Equipment Shelter
Broadcasting shelter	CEMS Shelters	Communication Shelter
Remote Shelters	Meteorological Monitoring	Near Road Monitoring
Pump House	Wind Control Shelter	Wastewater Shelter
And many others.		

Transportation:

For transportation, our shelters are carefully packed and secured to minimize the possibility of damage due to handling. They can be shipped internationally via sea freight.
